DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 42-104 and 119-144 drawn to various methods of operating a food waste disposer based on speed adjustment.

Group II. Claims 105-118, drawn to a method operating a food waste disposer based on torque adjustment.
2. Inventions of Groups I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. As evidenced by claims 42 and 105, a food waste disposal may operated based on speed alone or torque alone – i.e. separately usable.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art, restriction for examination purposes as indicated is proper.
